Description

Flash Bang Def Tec No. 25 is a non-lethal, non-toxic, and non-flammable device designed for use in law enforcement and military operations. It is a cylindrical device with a black handle and a black ring at the top. The device is made of high-strength plastic and is designed to withstand impact and fire. It is used to create a bright flash of light and a loud bang, which is used to disorient and incapacitate suspects. The device is also used to clear areas of a building or a vehicle. It is a safe and effective tool for law enforcement and military personnel.
