From The Manufacturer:

A safe alternative to Gun Dealer training
Both problem in Health with strong, impact-resistant polycarbonate with dual construction. This prevents bending and flexing while maintaining the ideal, handling and balance of the actual weapon they represent.
Ideal for Law Enforcement Academies, Military Training Facilities, Gun Clubs and Shooting Ranges.
In the world, look for "BLUEGUNS" - a realistic & safe alternative to using live firearms in training situations.

Many Blueguns are used in training classrooms and ranges all over the country. They have excellent detail. There are a great way to help students learn grip and stance without having active firearms in their hands. Blueguns are a great way for instructors to demonstrate techniques in the classroom and on the range. Blueguns are a great way to practice drawing a firearm from a concealed holster without having to go through the hassle of reloading a firearm.

Blueguns are very popular in the holster making industry as well. The attention to detail makes these "firearm simulators" a great tool for forming gunt-molding leather, and then keyboard holsters. We have sold these Blueguns to holster manufacturers all over the country.
